

# Email Plus Datasheet

Next generation email for your residential  
and business subscribers

# Email Plus

Our innovative email technology built with the latest web and mobile standards. **Your Brand. Your Users.**

## Built for service providers

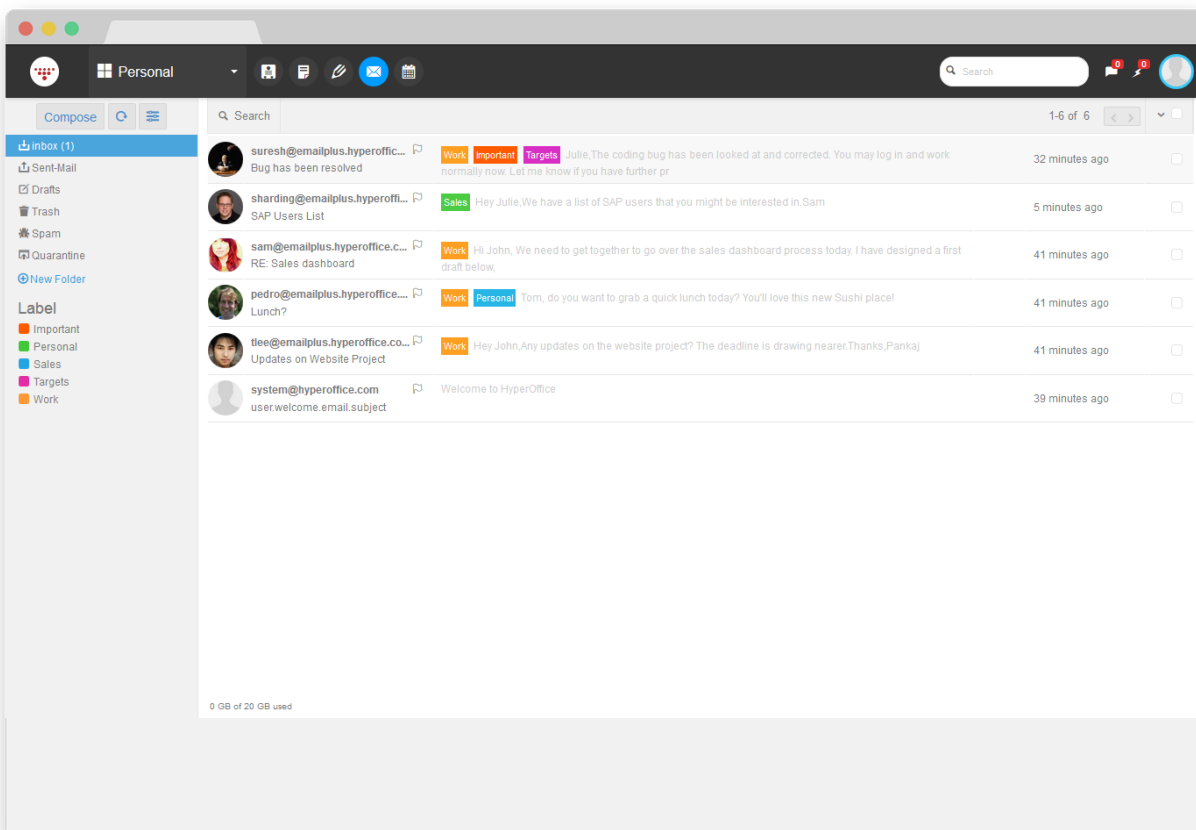

We are solely focused on enabling our partners. You get complete flexibility in terms of branding, hosting, packaging, pricing that lets you offer a solution fine-tuned to your user needs & strategy.

- Migration tools
- White Labeling & Branding
- Flexible Hosting
- Flexible packaging
- Upgrade to business solutions
- Support services
- Rich APIs - plug into existing infrastructure & systems

## Low-cost, Zero-hassle, Best-in-class

Most ISPs have had to contend with offering email which does not keep with the latest rigors of consumer email. HyperOffice Email Plus allows you to bring your users the latest in email technology in a slick modern interface under your own brand and domain.

HyperOffice gives you **flexible hosting options**. You may choose to host in HyperOffice's world-class cloud for a pain-free plug and play solution, or easily deploy the technology in data centers of your choice.
